Joy!

Spirituality & Interfaith Explorations

Sorrento Centre is proud of our roots in the Anglican tradition and welcomes all faith traditions. Even though we live in a world where people are unduly divided by income, social status, race, nationality, gender, housing status and many other factors Sorrento Centre continues to be a welcoming and inclusive place where all can gather and worship.

Come play with us, kids

Children and youth are integral to the life of Sorrento Centre, especially in the summer. Fun and enriching activities that will build character and friendships – not to mention memories that last a lifetime.

Expressive Arts

Combining visual arts, movement, drama, music, quilting, writing and other creative processes fosters deep personal growth and community development. By integrating the various arts methods, we gain access to our inner resources for healing, clarity, illumination and creativity.

Music & Performing Arts

Beautiful sounds of music and laughter rise up from our playing fields and bandstand and campsites! Whether it's ukulele music, or swing, bluegrass or musical theatre, there's something for everyone to explore the joy that comes from playing and learning with like-minded people.

Rest, Relaxation and Personal Wellness

Sorrento Centre is a place where you can relax and disconnect. Because sometimes all you want to do is find quiet time on your own while others are busy doing their thing elsewhere.

Summer Youth Staff

The perfect summer starts with the perfect summer job! Join our team for rewarding work in a positive and enriching environment. Perfect for young people aged 16 to 30.

Land-based Programs

Humans have become profoundly alienated from Mother Nature and she is calling to us to pay attention and to take care of her, to nurture her. Join us on the land to reconnect and get to know her better, and to deepen our living connections with nature.

Indigenous Ways of Knowing

As a place of transformation, healing and belonging, we seek to deepen our relationship with the land and our indigenous neighbours. While Sorrento Centre's programming is diverse throughout the year, indigenous ways of knowing and nature-based learning threads continue.
