STATIONS OF EARTH

Artistic reflections on the 'body' of Earth

In the Christian tradition, Good Friday, is a time of remembering the death of Christ's body. This year, the St. Catherine's Community invite you to reflect on a larger sense of Christ, the Cosmic Christ, the co-existence of matter and spirit.

Three Saint Catherine's artists (Rhonda Garton, Heather Luccock and Lynn Spence) depict the 'body' of Earth by reflecting on the four elements of Air, Water, Stone and Fire. Prayers and poetry trace the ways that the body of Earth is broken by human greed, power and fear, whilst considering the grace with which Christ uttered his final words as he died.
